

Dec 4, 2007 -

IReuse/Lucas Arts – We removed approximately 15 tons, 3 large flat bed truck loads, or approximately 2,000 cubic feet of: lighting fixtures, 350 cases of acoustical ceiling tiles, carpet tiles, door frames, and HVAC air handlers from the “Lucas” Presidio site. We were able to move one-third of the ceiling tiles to a New York auto dealer showroom, 20 cases of ceiling tiles to an Oregon law office, and light fixtures to other Bay Area projects.
